QUALIFICATIONS FOR MEMBERSHIP

Sec 1F. Recycler Membership. Any individual, partnership, corporation or a division, subsidiary or department of a company, who is engaged in the recycling/reuse of plastics. Recycler members must subscribe to the IAPD Code of Ethics and meet the following eligibility requirements: (a) Has engaged in the business of recycling/reuse of plastics for three or more years; and (b) Recycles 5 million pounds or more per year of plastic scrap; and (c) Provides reference letters from at least three existing customers in the plastics business, including two plastics distributors, attesting to the qualification for IAPD membership and verification that the applicant is engaged in the plastics recycling business.

Exceptions to any of the foregoing requirements for any category of membership may be made by the Board of Directors upon its determination that the particular circumstances will not be to the detriment of the Association or the applicant.

ANTITRUST POLICY

It is, of course, the policy and intention of the IAPD (International Association of Plastics Distribution) to comply with all laws. The antitrust laws are of particular concern, since IAPD is, by its nature, a group of competitors joined together for a common business purpose. Therefore, the following guidelines are adopted, and each officer, director, committee chair and vice chair, committee member, member of the association, staff member and any other representative or agent of the association is urged to comply with such guidelines.

I. MEMBERSHIP

Since members of the association derive an economic benefit from their membership, the bylaw requirements and qualifications for membership will be strictly adhered.

- (a) Each and every applicant for membership, who is qualified under the bylaws, will be promptly processed and admitted to membership.
- (b) Any applicant not qualified for membership under the bylaws will be promptly notified of the specific reason for non-qualification.
- (c) Rejected IAPD membership applicants and any members threatened with expulsion because of failure to comply with the bylaws membership requirements will, upon request, be afforded the opportunity for a hearing before the association's Board of Directors or Executive Committee.

II. ILLEGALITY OF DIVISION OF CUSTOMERS AND TERRITORIES

Since an agreement among competitors (including members of the association) to divide customers or establish territorial rights is a criminal act, any such agreement, therefore, formal or informal, is not to be considered or discussed.

III. STANDARDIZATION AND CERTIFICATION

Voluntary industry standards which favor some competitors and discriminate against others create antitrust problems. The association will not consider or adopt standardization or certification activities which further the interests of certain groups of members to the exclusion of others, since such activities may result in antitrust problems.

IV. INDUSTRY SELF-REGULATION

The association will not establish or enforce a code of ethics for its members under circumstances where such code of ethics would result in economic injury to certain groups of members.

- The undersigned applies for membership and pledges that, if approved, I/we will be governed by its bylaws as now adopted or as they may be hereafter amended and all the rules in conformity therewith which do not conflict with the laws of the United States or the states in which I/we do business. (Please print.)

V. PRICE FIXING

Prices charged by its members and the establishment of such prices is an inappropriate and illegal subject for association action and discussion, and the fixing of prices by individual members is declared to be outside the scope of the association's activities.

VI. DISCUSSION TOPICS TO BE AVOIDED

The following subjects will not be discussed at association-sponsored meetings, whether such meetings be of the Executive Committee, Board of Directors, committees or the general membership:

- (a) Current or future prices. (Great care must be taken in discussing past prices.)
- (b) A "fair" profit level.
- (c) Possible increases or decreases in prices.
- (d) Standardization or stabilization of prices.
- (e) Pricing procedures.
- (f) Cash discounts.
- (g) Credit terms.
- (h) Control of sales.
- (i) Allocation of markets.
- (j) Refusal to deal with a corporation because of its pricing or distribution policies.
- (k) Whether the pricing practices of any industry member are unethical or constitute an unfair trade practice.

CODE OF ETHICS

In order to foster mutual trust among distributors, manufacturers and representatives in the plastics industry, we are resolved to abide by the following code of ethics:

- Promote and support the distribution channel as a means to bring product to market.
- Refer to all products by their trademark, generic name or chemical formulation as solicited and clarify the differences in any or all three of the classifications as the case arises.

- Substitute competitive brands from a trademark solicited only upon approval of the buyer.
- Educate the buyer on our products without misrepresenting their advantages or disadvantages and promote the use of the various products for the physical, chemical and electrical properties for which they excel.
- Accurately represent and advertise our merchandise and services.
- Always be alert to new products which will benefit our customers.
- Comply with international standards and laws in all association activities.

- The undersigned applies for membership and pledges that, if approved, I/we will be governed by its bylaws as now adopted or as they may be hereafter amended and all the rules in conformity therewith which do not conflict with the laws of the United States or the states in which I/we do business. (Please print.)
