FOR IMMEDIATE RELEASE

EM Plastic & Electric Products Ltd. Joins the International Association of Plastics Distribution

OVERLAND PARK, KS – The International Association of Plastics Distribution (IAPD) is pleased to announce that EM Plastic & Electric Products Ltd., a distributor, has joined the association. The company's headquarters is located in Brampton, Ontario, with nine distribution warehouses located in major cities across Canada. EM Plastic & Electric Products Ltd. has been serving the sign, graphic, screen printing display and industrial markets for more than 50 years. More information is available at www.emplastic.com.

"I am pleased to welcome EM Plastic & Electric Products Ltd. as a new IAPD member," said IAPD CEO Susan E. Avery, CAE. "IAPD represents the plastics distribution supply chain and most importantly, champions the use of plastics in applications and the use of distribution as the way to market. Companies who are admitted to IAPD as full members of the association must evidence their commitment to the plastics distribution supply chain. The association will be their essential source for networking, training tools, education, information and insight. Through IAPD, they will have access to the thought leaders in the plastics distribution industry."

About IAPD

The International Association of Plastics Distribution (IAPD), established in 1956, brings together distributors, fabricators, manufacturers, manufacturers' representatives, recyclers and service providers in an environment which encourages a free flow of ideas and information that help members build their businesses. Every program and service we provide is designed with the simple goal of helping our members increase profitability. Membership in IAPD is an affordable business investment. IAPD provides training, connections with customers and suppliers and information about developments that impact the industry. What makes IAPD unique is a commitment to educating customers and other key end-users about plastics. In other words, IAPD works with members to build the demand for plastics. Central to this effort is the reinforcement of the value of distribution.
